

# VICTOR MERSEGUEL

Front-End Developer

Carcavelos, Cascais

+351 935 715 802 | [merseguel@gmail.com](mailto:merseguel@gmail.com)

Portfólio: [www.victormerseguel.com/dev](http://www.victormerseguel.com/dev) | GitHub: [/victormerseguel](https://github.com/victormerseguel)

## PROFESSIONAL OBJECTIVE

Front-End Developer with over 3 years of experience in technologies such as ReactJS, Next.js, JavaScript, HTML, and CSS, focused on creating optimized and scalable user interfaces. What I enjoy most about programming is translating design and user experience requirements into code using best practices, bridging two constantly evolving worlds.

## SKILLS SUMMARY

- **Programming Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frameworks:** React, Next.js, SASS
- **Tools:** Git, GitHub, Figma, Photoshop
- **Agile Methodologies:** Scrum, Kanban, Continuous Integration Testing
- **Additional Skills:** SEO, Web Performance, UX/UI Design

## PROFESSIONAL EXPERIENCE

### Front-End Developer at Guia L'Onde Portal

Carcavelos | January 2024 - February 2024

Front-End development and UI design for the new Guia L'Onde portal using React.js, Email.js, localStorage, and hreflang attribute management for multilingual routes.

Deploy: <https://www.guialonde.com/>

### Front-End Developer for Luciana Castellano Project

Carcavelos | September 2023 - February 2024

Front-End development and UI design for Luciana Castellano's website using Next.js with a focus on performance and SEO results. The application hosts multiple landing page routes with seasonal openings.

Deploy: <https://luciana-castellano.vercel.app/>

## **Freelancer – Web Developer and Web Designer**

Carcavelos | February 2022 – Present

- Development of professional websites using HTML, CSS, JavaScript, React.js, and Next.js, applying modern practices and scalable architecture through componentization.
- UI design, creating visually appealing and intuitive pages.
- Translating business requirements into technical solutions through close collaboration with clients.
- Utilizing Git and GitHub for version control and team collaboration.

## **EDUCATION**
