

# VICTOR MERSEGUEL

Front-End Developer

Carcavelos, Cascais

+351 935 715 802 | [merseguel@gmail.com](mailto:merseguel@gmail.com)

Portfólio: [www.victormerseguel.com/dev](http://www.victormerseguel.com/dev) | GitHub: [/victormerseguel](https://github.com/victormerseguel)

## PROFESSIONAL OBJECTIVE

Front-End Developer with over 3 years of experience in technologies such as **ReactJS, Next.js, TypeScript, JavaScript, HTML, and CSS**, focused on creating optimized and scalable user interfaces. What I enjoy most about programming is using best practices to translate design and user experience requirements into code, connecting two worlds that are constantly evolving.

## SKILLS SUMMARY

- **Programming Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frameworks:** React, Next.js, SASS
- **Tools:** Git, GitHub, Figma, Photoshop
- **Agile Methodologies:** Scrum, Kanban, Continuous Integration Testing
- **Additional Skills:** SEO, Web Performance, UX/UI Design

## PROFESSIONAL EXPERIENCE

### Front-End Developer – Mozantech

Lisbon, Portugal | **February 2025 – Present**

- Development and integration of components for the **Payload CMS** platform using **React, Next.js, TypeScript, and Tailwind CSS**.
- Participation in a large-scale project for a Portuguese government agency, collaborating with specialized and cross-functional teams to ensure integration and consistency.
- Work in agile methodologies (**Scrum and Kanban**) for continuous deliveries aligned with project goals.
- Focus on development best practices, ensuring clean, scalable, and high-performance code.

## Junior Front-End Developer – Gore Code

São Paulo, Brazil | **May 2024 – January 2025**

- Development and optimization of web interfaces using **React.js, Next.js, TypeScript, JavaScript, HTML, and CSS**.
- Implementation of **Styled Components, Tailwind CSS, and Sass** to ensure responsiveness and visual standardization.
- Application of **SSR and SSG in Next.js**, significantly reducing page load times.
- Efficient integration with **REST and GraphQL APIs** for dynamic data consumption.
- Active collaboration with designers and back-end developers, participating in code reviews and refinements to ensure clean and scalable code.

## Front-End Developer and Web Designer – Freelancer

Carcavelos, Portugal | **February 2022 – January 2025**

- Development of professional websites using **React.js, Next.js, TypeScript, JavaScript, HTML, and CSS**, with modern practices and scalable architecture through componentization.
- Design of user interfaces, creating visually appealing and intuitive pages.
- Translation of business requirements into technical solutions through close collaboration with clients.
- Use of Git and GitHub for version control and teamwork.

## EDUCATION

- **Web Development**
  - Complete React – Origamid (December 2022)
  - Creative Coding: Making Visuals with JavaScript – Domestika (October 2022)
  - Front-End Training – Matheus Battisti (October 2022)
  - JavaScript Fundamentals – Erick Wendel (August 2022)
- **BA in Performing Arts**

Fundação das Artes de São Caetano do Sul (February 2006 – September 2009)

## LANGUAGES

- **Portuguese:** Native
- **English:** Intermediate / Advanced
